CUBAN STORY DENIED.

Tale that Gomez Was Bribed to Abandon Presidential Aspirations.

New Orleans, June 15.—A sensational story was printed here yesterday on the authority of Charles M. Dobson, former staff correspondent of the Associated Press of Havana, to the effect that General Maximo Gomez was paid \$25,000 by General Wood out of the funds of Cuba to induce him to abandon his claims to the Presidency of Cuba and to prevent threatened disturbances among his followers. It was alleged that the money was paid at the request of the Washington Government, which feared that trouble in the islands at that time would endanger the election of President McKinley.

Washington, June 15.—Regarding a story emanating from New Orleans yesterday to the effect that General Gomez received a \$25,000 bribe from the Administration to withdraw from the Cuban campaign, thereby permitting the election of President Palma, it was stated tonight by an official close to President Roosevelt that he had never before heard of it. Secretary Hay said that not until his attention was called to the story had he received the slightest intimation of from any source.

Secretary Root thought the story was undoubtedly an exaggeration of General Wood's action in granting a pension to General Gomez. The statement that General Wood had paid General Gomez money to withdraw from the Cuban campaign, Secretary Root said, was absurd on its face, as Gomez was one of President Palma's warmest friends.

FAVORS MONROE DOCTRINE

New Evidence of International Comity Comes from England.

London, June 14.—The speech of Sir Frederick Pollock, corps professor of jurisprudence University of Oxford, before the London Chamber of Commerce, Wednesday, commending the Monroe doctrine, has caused interesting and diverse expressions of opinion from the Spectator and the Saturday Review. The Spectator is delighted and urges the State Department at Washington to enunciate the doctrine clearly, as then Great Britain could record her acquiescence, expressing at the same time its maintenance of British interest, adding: "Such a course would certainly benefit the peace of the world as well as the security of Canada and our other possessions."

"The Kaiser now thinks he has only to build enough ships to make the United States see the advisability of dropping the doctrine so far as South America is concerned. That incentive to profligate waste of the national resources might be withdrawn if the action we suggest is taken. The Americans, having got our adhesion to the doctrine, might submit it to Germany and the other great powers. If their answers were favorable, a great source for future quarrels would be automatically eliminated."

To Annex Cuba.

Washington, June 14.—Senator Elkins to-day introduced a joint resolution in the Senate providing for the annexation of Cuba and its admission as a state of the Union. The resolution grants the consent of Congress to the erection of the Republic of Cuba as a state of the Union, "to be called the State of Cuba, with a republican form of government, a constitution to be adopted by the people of said republic by deputies in convention assembled with the consent of the existing government."

TO FORCE FIGHTING.

Administration Senators to Crack the Party Whip Over Stalwarts.

Washington, June 14.—The present plans of the Senatorial supporters of Cuban reciprocity are to press the question to an issue next week. This was the result of the conferences held today and yesterday. The Republican members of the Committee on Cuban Relations will meet either Monday or Tuesday, and finally agree upon the exact terms of the bill to be reported as a substitute for the House bill. The measure thus agreed upon will be reported to a Republican caucus to be held Tuesday or Wednesday, and if the caucus indorses the measure it then will be brought before a meeting of the full Committee on Cuban Relations and reported to the Senate. The desire is to have all this done by the time the isthmian canal bill is disposed of on Thursday, so that the reciprocity bill may be given the first place in the order of business.

The reciprocity advocates still profess the utmost confidence in their ability to pass through the Senate any bill that may be recommended by the committee and caucus. They count largely upon the unwillingness of Republican members to align themselves strictly with the opposition against a bill that has been made a party measure by the President's message, and there are indications that at least in some instance this prognostication will prove sound.

X-RAYS AND DISEASE.

Important Announcement by Prominent Boston Surgeon.

New York, June 15.—A special to the Press from Boston says: The assertion has been made before the Massachusetts Medical Society by Dr. R. G. Southwick, Boston's leading surgeon, that the use of the X-rays promises great things in the treatment of malignant diseases which under the old methods of treatment unusually are impossible to cure. In a word, cancer, tumors, lupus and tuberculous glands henceforth can be cured in all cases where X-rays can be applied directly. Serious cases of tumor have been cured temporarily at least, and probably permanently, in the Booby Hospital under Dr. Southwick's treatment.

Dr. Southwick said it was too soon to say with scientific certainty that all the cases which had yielded to treatment were cured, but he added that the new cure was successful in all cases where the rays could exert their full power. He said the cure already had gone so far that it could be said most positively that in general cases X-rays were far superior to the surgeon's knife.

Athletics Will be Fine.

The arrangements for athletic events on the Fourth of July are proceeding admirably under the direction of J. T. Moir and his assistants. Those working with Mr. Moir are Jack Easton, Ed. Hapai, Jack Phillips, Geo. Wilson, Dave Butchart and Alex. Fraser. It is proposed to introduce a number of Scottish events and make athletics one of the features of the occasion. The committee meets tonight to finish the program and decide on purses.

Musical Success.

The concert Tuesday evening at the Haili Church for the benefit of the Hilo Boarding School was an artistic success. The amount realized was about sixty dollars. The Hilo Boarding School chorus was encored repeatedly. Mrs. Lewis, Mr. and Mrs. Bartels, Mrs. Curtis and Mr. Prouty each contributed to the musical success of the season. While the house was well filled, the excellence of the entertainment deserved a large patronage.

PECK'S WORK.

Hilo's Banker Proves a Success in Gaining Attention at Washington

P. Peck, president of the First Bank of Hilo, is doing prodigious work at Washington in behalf of Hilo's material interests. He has worked incessantly in the committee rooms at the Capitol at Washington and has been accorded courtesies and consideration by the Senators and committee chairmen, which is flattering both to Mr. Peck and the flourishing city he represents. Had he gone to Washington two months earlier, there is little doubt that he would have secured appropriations for a Federal building at Hilo and for a breakwater in Hilo bay. As it now is he has succeeded in placing Hilo in the list of cities soon to be investigated by the committee on public buildings. He has succeeded also in getting Hilo slated with Vonkers, New York, for an investigation as to the postal situation, report to be made to next Congress.

The dispatches say that Senator Foraker has assured Mr. Peck that had he been on the ground two months earlier all that Hilo wants could have been easily secured. Mr. Peck's own belief is that upon proper representations early in the next session, Hilo's needs will be promptly and liberally dealt with.

DOLE'S NEW ORDER.

Hazy Batch of Words Emitted to Countermand a Mistake.

Each arrival of the Kinau brings notice of some new freak that has been perpetrated by Hawaii's distinguished governor. Last week it was an order for all Territorial officials to quit politics. This week the Governor writes to the boys saying that he had no intention of depriving them of their rights as citizens of the United States. He talks like he is sorry he does not know how to be an American. The letter is as follows:

Executive Chamber, Territory of Hawaii.

HONOLULU, June 23rd, 1902.

SIR:—In relation to the recent discussion in the Executive Meeting on the subject of the political activity of officials, my opinion is that while it is not expected that officials shall forego their civil rights as citizens in political affairs, they should not use their official authority for the purpose of dominating the political party with which they are connected, or of controlling the result of elections. A just sense of official propriety should be the best guide in a matter of this kind, which from its very nature does not admit of hard and fast definitions.

I recommend that the above be substituted for the instructions on this subject previously issued.

Very respectfully,
SANFORD B. DOLE.

Another Attraction.

S. Decker arrived in the city Wednesday with the two clever pugilists, Jack Weday and Joe Decker, whom he proposes to match here on the evening of July 3rd for a ten round scientific exhibition. Mr. Decker promises satisfaction to all who witness the bout, or a refund of money. Weday is the champion middle weight of the American Navy and the Pacific Coast and weighs 155 pounds. Decker is the champion light weight of the Hawaiian Islands and will enter the ring at 125 pounds. Both are ready to meet all comers in their class. The preliminaries will consist of a Japanese wrestling match and other attractions by Honolulu parties.

Stupendous Improvement.

New York, June 14.—Manifestly for the purpose of retaining its commercial attractiveness, the City of New York is about to begin work on a project for the improvement of the Manhattan water front more extensive and costly than any proposition of the kind ever contemplated by any municipality in the world.
